ADMINISTERED BY SCREEN AUSTRALIA

www.screenaustralia.gov.au | POCU@screenaustralia.gov.au

Screen Australia administers the Producer Offset and Australia's Official Co-production program. It is the lead Australian Government agency responsible for supporting the development, production, promotion and distribution of Australian screen content in all its forms, across all platforms.

SERVICES PROVIDED TO FILMMAKERS

Screen Australia develops Australian voices by supporting screen practitioners to expand their skills, grow their businesses, and increase their international networks, ensuring our industry remains globally competitive. The agency invests directly in Australian feature films, documentaries, TV drama, children's content, online series, First Nations content and games. Additionally, the agency provides authoritative and relevant data and research to both the industry and government.

THE PRODUCER OFFSET

The Producer Offset is a refundable tax offset (rebate) for Australian films. To be regarded as an Australian film, the project must demonstrate it contains Significant Australian Content (SAC) or be an Official Co-production.

The Producer Offset is paid after a project is completed and Screen Australia has issued the production company with a Final Certificate.

The amount of the Offset is determined as a percentage of the Qualifying Australian Production Expenditure (QAPE). It is:

- 40% of QAPE incurred on theatrical feature films
- 30% of QAPE incurred on other eligible formats (for example, series or single episode programs made for TV, SVOD or online, documentary series and short-form animations)

Broadly speaking, QAPE is expenditure incurred on goods and services provided in Australia for the making of the film.

ELIGIBILITY: To be eligible for the Producer Offset, a film or program must:

- Be completed
- Have Significant Australian Content (SAC) or be an Official Co-production
- Be an eligible format
- Have QAPE that meets or exceeds the relevant threshold
- Be made by an applicant company which is an Australian company, or a foreign company with an Australian permanent residency and an Australian Business Number (ABN).

Screen Australia determines whether a film has SAC based on published guidelines which have regard to:

- The subject matter of the film
- The place where the film was made
- The nationalities and places of residence of the people who took part in making it
- The details of production expenditure incurred
- Any other matters that Screen Australia considers to be relevant, including the extent to which Australian producers and key creatives have a share in the copyright, profit and recoupment for the film.

OFFICIAL CO-PRODUCTIONS

Official Co-productions do not need to meet the SAC test to access the Producer Offset.

Australia currently has treaties in force with Canada, China, Germany, India, Ireland, Israel, Italy, Korea, Malaysia, Singapore, South Africa, the United Kingdom and Memoranda of Understandings with France and New Zealand.

These agreements set out the parameters for how two or more co-producers can make an eligible co-production, including the minimum financial and creative contributions. These agreements and the Screen Australia co-production guidelines are available on the Screen Australia website.

This will be determined on a case-by-case basis.

Screen Tasmania reserves the right not to approve an application if the applicant or its principals are not considered fit and proper, or where the funds are not available to meet the applied amount. In the latter case, the amount of funding approved may be reduced depending on the funds available.

This support can be in the form of a recoupable equity production investment or a non-recoupable grant, depending on the amount provided and/or the type of program you apply for, such as Production Equity Support for equity and the Island Screen Incentive program for grants.
